

MAINTENANCE RECOMMENDATIONS

- An occasional stiff broom brushing is all that is needed.
- Animal messes can be scooped up, and then simply washed away with a water hose.
- PolyTurf Refresh is for cleaning and odor removal when needed.
- A leaf blower can be used if so desired.
- The frequency of this simple process will change with your own personal taste and location.
- We also offer recommended installers that can provide annual Tune-up & Maintenance programs

Along with:

- Pressure washing
- Power brush
- and additional in-fill if required
