

PolyTurf Refresh

When degrading organic waste is the task at hand, **PolyTurf Refresh** is your solution. Our specially formulated blend of enzyme-producing bacterial cultures, combined with biodegradable surfactants and odor – neutralizing fragrances, breaks down waste naturally, effectively.

PolyTurf Refresh contains several Bacillus stains making it extremely effective in general odor control and pet odor control. And since **PolyTurf Refresh** is a complete product, you simply dilute with water and spray. It is that easy.

The Bacillus in **PolyTurf Refresh** is delivered in spore form, remaining dormant until the product is introduced to organic waste environments. At that point, the various Bacillus strains come to live multiplying every 20 seconds.

PolyTurf Refresh is non-corrosive, USDA authorized, environmentally safe, and non-pathogenic. It contains over 250 billion bacilli per gallon, which make cleaning organic waste easy.

The success of **PolyTurf Refresh** is well documented in a variety of organic waste applications including:

Odor Control:

From tough odor control in pet odors, **PolyTurf Refresh** gets to the root of the problem, destroying the source of malodors. Because of its effectiveness, **PolyTurf Refresh** enables you to do away with costly and ineffective masking agents. PolyTurf Refresh will clean the surface and deposits millions of bacilli. After 20 seconds, the Bacillus come to life and eats the food and vomit remnants until there is not any food source left. Then the Bacillus dies, leaving the surface clean and fresh smelling.

PolyTurf Refresh provides these benefits:

- Totally formulated product. Just use straight or dilute with water to achieve desired result.
- Vigorous bacterial enzyme production accelerates digestion and breakdown of protein, carbohydrates, cellulose and fats.
- Guaranteed high bacterial count. As much as 250 billion bacteria per gallon
- Environmentally safe, non-pathogenic
- Aerobic and anaerobic growth capabilities
- Extended shelf life
- USDA authorized

PolyTurf Refresh is your one product for cleaning and removing stubborn stains and odors. Its unique Bacillus blend makes it perfect for a wide range of cleaning and odor removal jobs. The only limit to its use is your imagination.
